Luminous is the latest single by Anaya, a composition that has a real ethereal and angelic feel about its overall construction. Anaya's talents of creating colourful, artistic music are well known, and here on Luminous, she explores further into the electronic style, in the early stages of the composition one can also sense a little Tomita in the mix.

Luminous has a sense of ambience that allows the listener to easily drift along with the music in a peaceful reverie of calmness.

This is electronic ambient music at its best.
